Dreer's Quarterly Wholesale Price List.

September-December, 1896.

BULB DEPARTMENT.—The immense quantities of Bulbs which we handle, enable us to supply them at the lowest possible prices. Our sources of supply are the best in this country and abroad, the leading growers of the world having for years supplied us with their choicest stock.

SEED DEPARTMENT.—This is in charge of trained experts, and whether your wants may be in Vegetable, Agricultural or Flower seeds, you may be sure to get only the choicest.

PLANT DEPARTMENT.—Our stock of decorative plants, such as Palms, Ferns, Pandanus, Ficus, Araucaria, etc., etc., is now very complete in a full line of sizes, from small seedlings for growing on, to specimens of the most useful decorative sizes. The plants are all in a clean, healthy, vigorous condition, thrifty and well-grown, and will compare favorably with stock distributed by us in previous seasons.

Whenever possible, we solicit a personal inspection of our stock. Our nurseries at Riverton, N. J., are within easy reach from either Philadelphia or New York, and something of interest will always be seen.

The range of new glass erected in 1895, covering 53,000 square feet—nearly one acre being under one roof—is certain to interest anyone having anything to do with a greenhouse. Another similar structure of same size is now in course of construction. This, we believe, will illustrate in a practical way, that we believe in home-grown plants.

Our Palm cultures are now undoubtedly the largest and most complete in the country; our stock of Kentias alone (the most popular and most desirable of all Palms,) on July 1st, consisted of one hundred and twenty-four thousand plants, from small seedlings in 2 inch pots, to specimens in 10 and 12 inch pots; other popular varieties being represented in the same proportion.

A time card of trains, with directions how to reach the nurseries, will be mailed to anyone applying.

LOW EXPRESS RATES ON PLANTS.—We are shipping by express lines to all parts of the country, plants packed in closed boxes at a reduction of 20 per cent. from regular rates of merchandise. Boxes weighing less than 100 pounds are charged at pound rates, minimum charge not less than 35 cents. For example: where the general rate is \$5.00 per 100 pounds, a box weighing 20 pounds will be carried for 80 cents. Prepaid 4 pound packages of seeds, plants, and bulbs are carried to California and all distant points for 30 cents each.

By our careful and thorough system of packing, we **Guarantee Safe Delivery** on Plants and perishable goods, when ordered to be sent by Express.

Plants and other perishable goods, when sent in any other way, are solely at Purchaser's Risk.

TERMS OF BUSINESS.— Unknown correspondents desiring to open an account, will please furnish satisfactory reference, otherwise cash must accompany order.

Remittances should be made by Post Office Money Orders, Drafts on New York or Philadelphia banks, or Express Money Orders. Where it is not possible to obtain these, the letter should be registered. We cannot guarantee receipt of money sent in any other way.

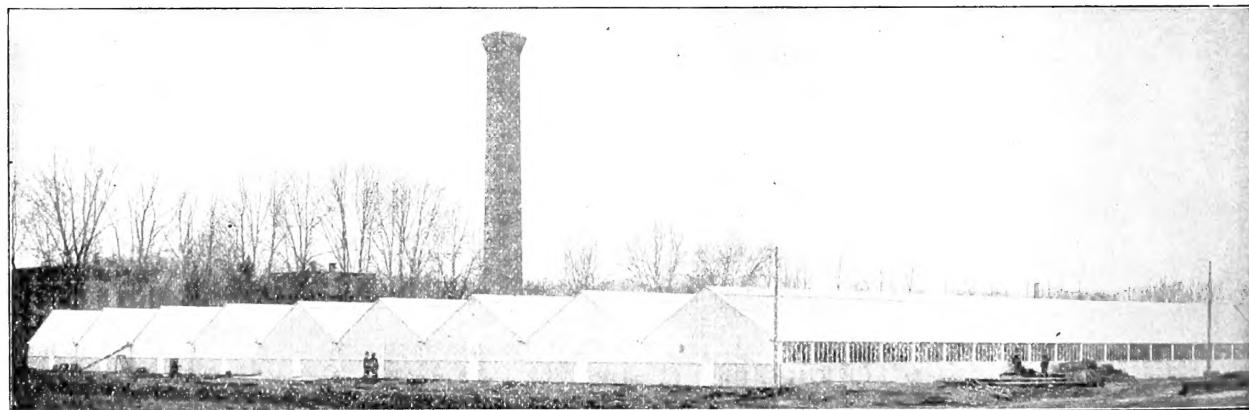

Perishable goods desired C. O. D. must be accompanied by a partial remittance to guarantee acceptance.

CHANGE OF TERMS.—In order to equalize and to give the same time of credit on all purchases, we have decided to abolish our old system of credits in which all accounts, regardless of date of purchase, were due in January and July, and have decided to adopt a new system, as follows:

On and after January 1st, 1896, all bills will be due and payable Ninety (90) days after date of invoice.

No charge is made for boxes or packing, nor for delivery to Freight Depots or Express Offices. In filling out your order, always give **Shipping Directions**, and write **Name and Address Distinctly**.

NON-WARRANTY.—We wish it to be distinctly understood, that although we continue to take all possible pains to supply only New, Genuine and unadulterated Seeds and Bulbs, we still give no warranty, express or implied, as to description, quality, productiveness, or any other matter of any of the Seeds or Bulbs we send out, and will not be in any way responsible for the crop. Every order received for articles named in this Catalogue will be executed on these conditions only.

Outside view of the New Range of Palm Houses, containing 53,000 square feet of glass, erected in 1895.
A similar block to this, also to be used for Palms, being now in course of construction.

Dreer's Reliable Bulbs.

NAMED HYACINTHS.

Selected First Size.

The superiority of Named Hyacinths for forcing and bedding is attested by the increased sales of the past few years. They can always be depended upon to produce large full spikes which command a much higher price and readier sale than the inferior blooms produced by the mixed sorts.

Plants for Florists.

We have the largest stock of Decorative Plants in the country. See what we say on the inside of front cover in relation to our Plant Department.

All measurements given are from the top of the pot with the plant standing in a natural position, and not from the bottom of the pot to the top of the longest leaf, as is the custom with some growers.

PALMS.

The following list embraces only the most desirable varieties for general purposes, it being our object not to offer a long list of varieties, many of which would be useful only from a botanical standpoint, and worthless to the florist.

ARECA LUTESCENS.

Areca Lutescens.

Cocos Weddeliana.

We have now in stock a fine lot of well grown, good shaped plants in 3 inch pots.

This variety is now almost indispensable in filling Ferneries and Jardinières, and parties wishing a supply will do well to order at once. \$3.00 per doz.; \$25.00 per 100.

Cocos Plumosus.

Strong 3 inch pots, \$1.25 per dozen; \$10.00 per 100.

Chamaerops Excelsa.

2½ inch pots, 75 cents per dozen; \$6.00 per 100.

Latania Borbonica Aurea.

This is the golden-leaved Latania, a rare and beautiful plant that is seldom offered. Our stock is limited.

Fine plants in 5 inch pots, showing character nicely, \$2.50 each.

Kentia Belmoreana.

Our stock of this beautiful Kentia is in fine shape, and we offer a very full line of sizes.

Large decorative plants, 5 to 6 feet high, with from 10 to 12 leaves, in 11 and 12 inch pots, \$7.50 to \$10.00 each.

The larger sizes of Latanias are not all perfect, but are good saleable plants that will give satisfaction.

Araucaria Excelsa.

(Norfolk Island Pine.)

The growing demand for this beautiful decorative plant has induced us to prepare an extra large stock.

4 inch pots, 6 inches high, nice little stock to grow on, 60 cts. each.

5 inch pots, 3 tiers, 12 to 14 inches high,	\$1.25 each.

Aralia Sieboldii.

(Green Leaved.)

A most excellent house plant, having large, deeply cut foliage, which is of a bright, cheerful green color.

Fine plants in 4 inch pots, 25 cts. each; \$2.50 per doz.

Aralia Sieboldii Variegata.

A pretty variegated form of the above. Good 4 inch pot plants, 50 cents each.

Aralia Chaubrieri.

An elegant plant for table decorations with fern-like dark green leaves, brightened by crimson midribs; strong plants in 5 inch pots, \$1.50 each.

Anthurium Scherzerianum.

One of the most striking dwarf-flowering stove plants, producing beautiful brilliant scarlet flowers, each of which remains from two to three months in bloom.

Good strong thrifty plants in 4 inch pots, 75 cts. each.

Livistonia Rotundifolia.

One of the prettiest Palms in cultivation, especially suited for table decoration. The foliage is similar to that of a Latania Borbonica, but smaller and gracefully recurved, forming an almost globular plant.

2 in. pots, \$2.00 per dozen; \$15.00 per 100.
3 " " 3.00 " 25.00 "

Phoenix Rupicola.

We offer a fine lot of this choice variety, true to name.

4 " " 2.50 " " 18.00 " "	

Rhipis Flabelliformis.

This is undoubtedly one of the hardiest decorative Palms in cultivation, and is the true broad-leaved variety.

We offer a nice lot of 6 inch pots, about 24 inches high single stem, with several suckers starting, at \$1.50 each.

Seaforthia Elegans.

2½ inch pots, 75 cents per dozen; \$6.00 per 100.
3 " " \$1.00 " " 8.00 " "

Aspidistra Lurida.

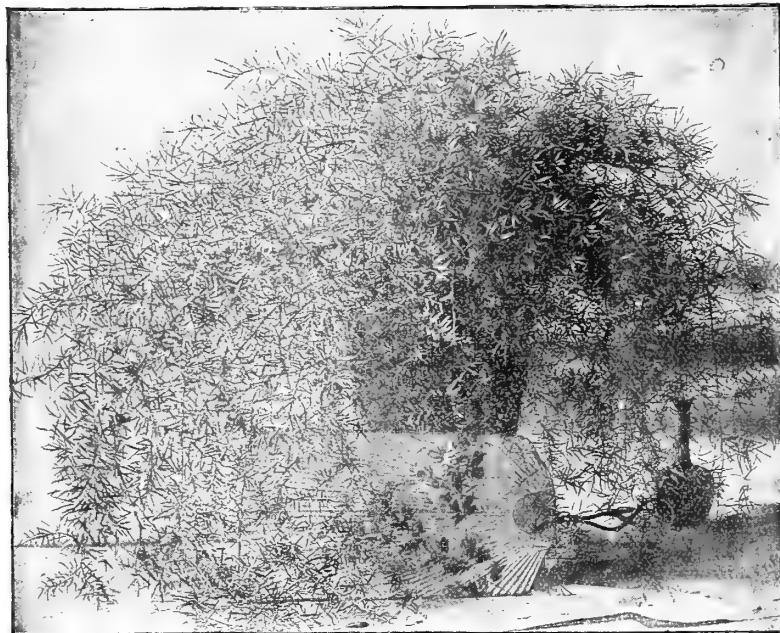

Four inch pots with 4 to 5 good leaves, \$3.00 per dozen.

ARAUCARIA.

Trenton, N. J., June 5, 1896.
The Palms arrived this A. M. in elegant condition, and we thank you for your careful packing and prompt delivery. We notice they are very good value.

W.M. MOORE & CO

ASPARAGUS SPRENGERI.

Asparagus**Sprengerii.**

A most desirable new species, especially useful to grow as a pot plant for decorative purposes or for planting in suspended baskets; the fronds are frequently four feet long, are of a rich shade of green and most useful for cuttings, retaining their freshness after being cut for weeks. It will make an excellent house plant, as it withstands dry atmosphere, and will succeed in almost any position.

We consider this a first-class plant in every way, and having succeeded in growing a large stock, we are enabled to offer it at a very low price.

Extra strong plants in 4 inch pots, 35 cts. each ; \$4.00 per doz.; \$30.00 per 100.

Fine strong 3 inch pots, 20 cts. each ; \$2.00 per doz.; \$15.00 per 100.

Good young stock, in 2 inch pots, \$1.50 per doz.; \$10.00 per 100.

Asparagus Plumosus Nanus.

We still offer a good stock of 2 inch pot plants, seedling stock, which is very much superior to old divided stools.

\$1.00 per doz.; \$8.00 per 100; \$70 per 1000.

Ardisia Crispa.

Similar to Ardisia Crenulata in every way, except that the fruit is much larger and of a darker, richer color.

2½ inch pots,	75 cts. per doz.	\$6.00 per 100.
3 " "	\$1.25 per doz.	\$10.00 per 100.

Dracæna Marginata.

Fine plants of this useful variety.

4 inch pots, 35 cents each.

Dracæna Massangeana.

Good plants in 4 inch pots, 75 cents each.

Dracæna Lindeni.

A beautiful variegated form of Fragrans, with broad green foliage and golden yellow stripes on the edges of the leaves. Good plants in 4 inch pots, 75 cts. each.

Dracæna Terminalis.

2 inch pots, \$1.00 per doz.; \$7.00 per 100.
3 " " 1.25 " 10.00 "

Dracæna Sanderiana.

A new and entirely distinct species and one of the finest novelties introduced for years. It has thick textured narrow leaves which are closely set on slender upright stems variegated with silvery white and green bands alternating and of various widths, the whole surface of the plant being covered with a silvery sheen of bloom. It is altogether different from anything heretofore known in the way of Dracænas. Good plants in 2½ inch pots, 50 cents each.

Fine Ferns.

As usual, our stock of Ferns this season is again very large, about 500,000 being now in pots ready to send out, with more than double this quantity coming on in flats and seed beds.

Our collection has been especially selected with a view of offering only the very best for general florists' use, discarding all such as are only useful in a botanical collection.

Adiantum Lathomii.

A most desirable Adiantum for growing into specimens. We offer a limited lot of 2 inch pots, \$1.25 per doz.

FERNS—Scarce and Special Varieties.

Cibotium Schiedei.

This is undoubtedly the finest of all the Tree Ferns for use in decorative purposes, it being a variety that is always scarce and difficult to obtain. We have succeeded in growing a fine lot of this variety, and offer beautiful decorative plants of it.

In 8 inch pots at \$3.50 each.

Davallia Fifiensis Plumosa.

One of the prettiest of the Davallias; especially fine for growing into specimen plants; with dark green, gracefully arching fronds.

3 inch pots, \$1.50 per doz.; \$12.00 per 100.

Davallia Fifiensis Major.

Similar to the above, but with heavier foliage.

3 inch pots \$1.50 per doz.; \$10 per 100.

Doryopteris Nobilis.

We have succeeded in growing a very fine lot of this beautiful variegated fern, which enables us to offer it at a much reduced price. We have fine 4 inch pots, 25 cts. each; \$2.50 per doz.

Nephrolepis Cordata Compacta.

We consider this the most useful and desirable Nephrolepis yet introduced. It is of rapid growth, good color and very graceful.

3 inch pots, \$2.00 per doz. 6 inch pots, 50 cts. each.

Ficus Elastica.

4 inch pots, 10 to 12 inches high, \$4.50 per dozen.

3 inch pots, \$1.25 per doz.; \$10.00 per 100.

MISCELLANEOUS PLANTS.

VIEW OF HOUSE OF AZALEAS, 252 x 25 FEET.—From a photograph.

AZALEAS.

We are now booking orders for fall delivery. Buyers who use a quantity of this most popular Easter blooming plant, will find it to their interest to place their orders for next season's wants early, thereby securing the choice of the stock at lowest cost for transportation, as the plants can be forwarded with perfect safety during October, by fast freight, even to the most distant points.

Our attention is frequently directed to other growers and dealers offering Azaleas of the same diameter as herein quoted, at much lower prices. We wish to say in reference to this stock, that there is more than one way of measuring an Azalea, and while a plant may measure 15 inches in diameter, it may be really worth less than another plant that only measures 12 inches in diameter. Most of this stock is grown on quickly without sufficient cutting back, the idea being to get a plant so many inches in diameter.

We would here say that we do not offer our stock in competition with this class of plant. We have been handling Azaleas as a specialty for many years; last year we distributed nearly 25,000 plants, without a single complaint of any consequence.

Our prices are as low as first-class, bushy, well budded stock can be supplied for, and we are certain that they will give entire satisfaction.

Our growers in Belgium are among the most successful men handling Azaleas; they have been specialists in this line for many years, and their principal stock is sent to us.

All of our importations of Azaleas are sent here in bulk, and are all repacked at our own nurseries, so that any plants that may not have carried well are set aside. This insures our customers of securing only first-class stock, which cannot be compared with cheap assorted case lots which are made up in Belgium, and are distributed on this side just as received, frequently not only containing damaged plants, but also, as a rule, many varieties not at all suited to the American trade.

The varieties we supply are only the most popular sorts suited to the American market. We give personal attention to the selection of these stocks abroad, and can guarantee satisfaction. We offer well budded plants with bushy crowns.

Double Varieties in Choice Mixture. \$7.00 per 100; \$65.00 per 1000.

Grand New CANNAS

Austria and Italia

Being an entirely new race of Cannas and altogether distinct from anything introduced heretofore, they have been very appropriately called "Orchid-flowering Cannas."

Both varieties have flowers of immense size, frequently measuring six inches across; the colors are distinct and pleasing and the flowers are produced in the greatest profusion. They have been described by the introducers as growing 9 feet high, but in our own grounds at this writing (August 15th) under liberal cultivation, they have attained but one-half of that height, but are most vigorous and free in habit.

Italia is of a bright orange scarlet with a very broad golden yellow border; the flowers, which are produced on massive stems about 16 inches long, are set well above the foliage; the foliage is large and heavy, similar to that of the *Musa Ensete*.

Austria is a counterpart of Italia in every way, except in the color of its flowers, which are of a pure canary yellow, with but a few traces of small reddish brown spots in the centre of the two inside petals.

Good plants, ready about October 15th, \$1.00 each; \$10.00 per dozen.

New Crimson Bedding Canna.—BEAUTE POITEVINA.

Out of over 150 varieties of Cannas grown by us this season this variety stands pre-eminent in its class. It is of a bright rich crimson color, with erect flower spikes, growing about the same height as Chas. Henderson, and is an ideal Canna for bedding. It is constitutionally hardy, having stood the severe drouth better than any other variety, flowers standing the heat and intense rays of the sun without the slightest injury. It comes into bloom very early in the season, blooms continuously, and we have no hesitation in recommending it as an exceptionally good variety as a brilliant bedder. Price, 50 cts. each; \$5.00 per doz.; \$35.00 per 100.

New Cannas of Special Merit and Introductions for 1897.

The following set of 28 varieties is a selection of the finest new sorts selected from 60 varieties, introductions of the most prominent growers. All will be found decided acquisitions to our already long list of Cannas, and after careful trials made on our own grounds, we have no hesitancy in recommending every one of them.

General Collection of Dwarf French Cannas.

Large Field-grown Clumps.

Having a large stock of the following varieties of Cannas, we offer them in strong undivided field-grown clumps, which will average from twenty to fifty eyes each according to the variety, and at a price which will make it an advantage to stock up during the fall, while they can be shipped in perfect safety by freight at a low cost for transportation. Orders for this stock at these low prices will only be accepted as long as the plants remain in the fields, which is usually until about the middle of October. Place your orders now and the stock will be reserved until the proper time to dig.

New Dwarf Justicia "Velutina."

This New Dwarf Justicia, so highly praised by Mr. Louis de Vilmorin in the *Revue Horticole*, is really a much finer and dwarfer plant than our engraving, made from an imported specimen, suggests. Everyone knows the tall, lanky, straggling habit of the old Justicia Rosea. This new sort, which is now grown so extensively by Parisian florists, begins to bloom when the plant has only three or four leaves, and is never out of flower afterward. If pinched back occasionally it makes a very dwarf, stocky plant, frequently covered with 20 to 50 large pink flower-heads, lasting a long time. The foliage is also more persistent and highly ornamental, being heavy in texture and very velvety. 20 cts. each ; \$2.00 per dozen.

Linum Trigynum.

We will have a fine lot of this useful fall and winter flowering plant ready early in October ; strong 4 inch pots, \$1.50 per doz. ; \$12.00 per 100.

Dreer's Double Petunias.

Our strain of Double Petunias is too well known to require special description. For many years this has been one of the specialties of our establishment, and again this season we have grown many thousands of seedlings from which our collection has been selected, embracing only such distinct fringed varieties and colors that are especially suited to the retail trade.

We offer strong 3 inch pots, in 15 distinct varieties, ready about the first of October, at \$1.50 per set ; or \$10.00 per 100.

Lapageria Rosea and Alba.

We offer good plants in 6 inch pots. Roseas, \$2.50 each ; Albas, \$3.50 each.

CARNATIONS.

The plants we offer are field grown, they are lifted and potted early in September, and are ready for shipment early in October. Being established in pots the plants transport much better than stock shipped direct from the field.

The plants this season are not extra large, but are all in a healthy, thrifty condition, and should give entire satisfaction.

Musa Ensete.

(Abyssinian Banana.)

The leaves of this magnificent plant are long, broad and massive, of a beautiful green, with a broad, crimson midrib ; the plant grows luxuriantly from 8 to 12 feet high, producing a tropical effect.

4 inch pots, 15 to 18 inches high, 35 cts. each ; \$4.50 per doz.

Primula Sinensis Fimbriata.

A choice strain of Primulas in $2\frac{1}{4}$ inch pots, at 60 cents per dozen ; \$4.00 per 100.

New Crimson Spirea Anthony Waterer.

A valuable and remarkable new shrub. This is one of those exceptional novelties that occur only at rare intervals, adding richness and beauty to our garden-flora. It outshines all Spireas in brilliancy of color, being of a bright crimson, of dwarfer and denser growth, and a profuse and continuous bloomer, being in bloom during the entire summer and fall. It makes an admirable pot plant as well, and will no doubt become a standard plant for Easter decoration. 1 year old field-grown plants, \$1.50 per dozen ; \$10.00 per 100.

Smilax.

$2\frac{1}{2}$ inch pots, \$3.50 per 100 ; \$30.00 per 1000.

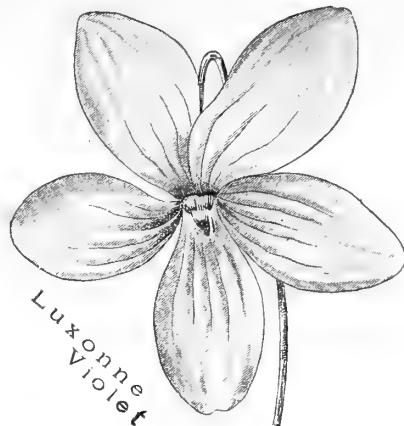

New Single Violet, Luxonne.

This variety is of French origin and was introduced into this country some four years ago by Mr. Francois Supiot, the Violet expert of Philadelphia, otherwise known as the "Violet King." It has, as Mr. Supiot claims, become thoroughly acclimated, and is without doubt the most profitable single Violet grown. It is of the same size as the California, but appears nearly double its size, as all the petals open out flat, and has the advantage of flowering continuously from early in September until April, and does not come in crops like the California. It is of a beautiful rich, but soft violet purple color, with strong, stout stems from 9 to 12 inches long, and very fragrant.

Shown in competition with well grown flowers of the California at the New York Flower Show last Fall, it was awarded first prize. In Philadelphia's Chrysanthemum Show it received also first prize.

We can fully endorse Mr. Supiot's description of the above, and also his claims that it supersedes all of the other varieties now on the market.

\$2.00 per dozen ; \$15.00 per 100.

New Single Violet, Princess de Galles.

(Princess of Wales.)

Another grand variety not quite as large as Luxonne and a shade lighter in color; considered by many as superior to the Luxonne.

\$2.00 per dozen ; \$15.00 per 100.

New Single Red Violet, Admiral Avellan.

Also of French introduction with entirely distinct bright reddish purple flowers, different from anything yet introduced; the flowers, which are produced very freely, are of large size and fragrant.

\$2.00 per dozen ; \$15.00 per 100.

Flower Seeds.

We give close attention to the Flower Seed department of our business, which is probably the largest in quantity and variety in this country.

Our constant aim is to procure the very best strains obtainable, both of home and foreign growth, and we spare no pains or expense with this object in view. We call special attention to our choice strains of Cineraria, Carnations, Calceolaria, Cyclamen, Gloxinia, Pansy, and Primula, which are acknowledged by leading growers to be superior in all respects. Our trade packets contain a liberal supply; where smaller quantities are wanted, buyers can select from retail catalogue at a discount of one-third.

MASTICA.

For glazing green-houses, new or old. Elastic, adhesive, easy to apply. Every florist has experienced difficulty in getting putty that is satisfactory for any length of time. The fact is, putty is not adapted to stand the severe and varied tests to which it is subjected on a green-house. Mastica being elastic, is not affected by the expansion and contraction, and retains this property for years.
